

Water Restrictions

Due to the extensive watering of lawns in the park, we are forced to limit usage.

Watering is limited to odd numbered lots on odd numbered days of the month and even numbers lots on even numbered days of the month.

Please do your watering prior to 10:00am or after 8:00pm. It's a waste to water during the heat of the day. And please, the roads will not grow no matter how much water you apply.

Vehicle washing is prohibited in the park, however, RV units may be bucket washed.

Thank you for your cooperation.
